

Provider Villa

Provider Villa is a comprehensive solution that caters to provider integration needs of health plans and their operational processes. It is a central repository of provider and facility data which can be shared according to needs of different processes.

Features

Single source of truth for provider related information

Solves routine needs through real time accurate information from dependent systems

Providers can self-register into the application with valid TIN and NPI combinations

Admins can easily manage user accounts in the Provider Portal

Benefits

Generation of unique Plan Provider ID if missing in migration

Send the daily report to users after migration (for auditing)

Search Contract on basis of Contract ID, Contract Name and Pay To

File Tracker to keep track of files uploaded

Manage roles, users and mapping of users to role

Standard and Adhoc reports for audit purposes and insights
